

Introduction

This document provides the current dates and prices for SAFE public courses and training materials for 2011. Full details of the courses can be found on the SAFE web-site, www.safe-training.com

Courses

Courses for trainers

SAFE provides a wide range of courses for trainers, applicable to those working in a wide range of industries. In the security industry, all trainers are required to hold the PTLLS qualification or equivalent, and 'Conflict management for trainers' and 'Deliverers of physical intervention training for the private security industry' awards.

SAFE offer two variants of the PTLLS level 3 award, the first as a fully taught programme. The second programme is new for 2011, using blended learning and a skills development workshop to reduce costs.
